A.

American Gas Light Association, Proceedings, 7th Annual Meeting, 3,
Accident at Gas Works, Dorchester, England, 12.
" " " Explosion at Lowe Works in Baltimore, 12
Accident at Gas Works, Williamsburg, Caused by Explosion in Pratt's Astral Oil Works, 37.
Artificial Diamonds, 58.
Arrival of M. De Lesseps, 97.
Amalgamation, Scheme for, 80. Metropolitan and Phœnix, 175.
A New Paper for Boys and Girls, 194.
Adams, Dr., On Units of Heat, 198.
American Society Civil Engineers, 201.
Accidental Extinction of Street Lamps, 266.

B.

Book Notices, 25.
Balman's Luminous Paint, 227.
Blasting Agent, New, 229.
Brighton Water Works, 253.
Blew the Gas Out, 246.
British Association of Gas Managers, 268.

C.

Consolidation in Brooklyn, N. Y., 1.
Coal Gas—Is it a Failure, 1.
City of St. Louis *vs.* St. Louis Gas Light Co., 12, 27.
Coal Gas *vs.* Water Gas, 34
Controlling Supply from Holder to Burner, 59.
Cement for Leather Belting, 2.
Cement for Joining Leather and Metal, 84.
" " Glass, Earthen Ware, etc., 122.
Central New York Gas Engineers Association, 107, 131, 156, 177, 250, 271.
Connellsville Gas Coal and Iron Co., 122.
Carbonic Oxide, 133, 229.
Coal Fields of Colorado, 156.
Caution—Naphtha Lanterns, 156.
Coke, Improved Process of Manufacture, 157.
Coke, Sale of, etc., 150.
Consolidation in Baltimore, 170, 275.
Clocks, Pneumatic, 181.
Caution from Mr. Latimer on Metric System, 195.
Compressed Air Locomotive, 195.
Casting Gas Pipes Vertically, 275.

CORRESPONDENCE—

Dieterich Furnace, 13.
Letter from Mr. Pearson, 13.
Electric Light, Mr. Helme, 37.
Water Gas, E. Vanderpool, 34, 50.
" " Mr. Allen, 61.
Corrections in Report of Mr. Allen's Remarks on Water Gas, 85.
Houston Gas Light Co., 85.
Gas for Heating and Cooking—Is it Practical, 109.
The Bunsen or Blue Light in Family Cooking, 122.
Carbonic Oxide, 98.
Carbonic Oxide, 133.
Coke for Domestic Use, 205.
Gas Engines, 98.
Gas Engines, 205.
Experience of One Overcome by Gas, 252.
Gas Making in the West, 276.
Suffocation by Water Gas, 276.

D.

Dieterich's Furnace, 13.
Death from Water Gas, 61, 252, 246, 276, 277.
Determination of Sulphur in Coal, 254.

E.

Electric Light in Liverpool, 12.
" " Edisons's, in New York, 12.
" " Edison's, 25.
" " Menlo Park, 37.
" " Thirty Years Ago, 58.
" " *vs.* Gas Light, 57.
" " *Cum Grano Salis*, 58.
" " Co. in Brooklyn, 61.
" " —Edison's Lamps Break, 84.
" " Gloom in Menlo Park, 84.
" " Death from, 84.
" " Edison's, Measure of, by Prof. Morton, 170, 194.
Engineers' Club, Philadelphia, 50.
Edison's New Discovery, 145.
Explosion of Gasoline, Piqua, O., 276.
Explosion at New York Gas Co.'s Scrubbers, 194.
English Coals in France, 246.
Electric Light, Medical Opinion of, 181.
" " Prospects of, 201.
Electric Light in London, 203.
" " Three Month's Experience at Blackpool, England, 221.
Electric Light, Effect of, on the Eyes, 243.

EDITORIALS—

Brooklyn Consolidation, 1.
The Edison Light, 25.
Death of George W. Edge, 26.
Book Notices, 25.
Gas Works with Deficient Plant, 49.
Gas Matters in New York, 73.
New England Association Gas Engineers, 97.
M. De Lesseps, 97.
State Inspectors of Gas Cos., 121.
Gas Furnaces, 145.
Gas War in New York Ended, 167.
Extinction of Street Lamps by Atmospheric Disturbance, 217.
Stoking by Machinery, 218.
Prof. Wurtz Removed to New York, 217.
Gas Suffocation, 241.
Western Gas Association, 265.

F.

Fire and Explosion, Consumers Gas Works, Baltimore, 12.
Fire Damp Meter, 229.
Fouling Streams by Gas Works, 253.
Fire and Panic, 248.

G.

Gas Holder, South Metropolitan Co., London, Size of, 37.
Gas Works with Deficient Plant, 49.
Gas Engines, 74.
Gas and Gas Making, 78.
Gas Holders—Can They be Dispensed With, 81.
Gas Making, Expenses of, 83.
Gas Pipes and Rats, 85.
Gas and Gas Making, 100.
Gaseous Fuel, 130.
Gas Furnaces, 145, 147.
Gas Committee, Birmingham, England, 156.
Gas Stoves, 152.
Gas War in New York Ended, 169.
Gas Question in Washington, D. C., 194.
Gas and Electricity, 195.
Gas Inspection in Massachusetts, 219.
Gas Matters in New Bedford, 225.
Gas Purification, 219.
Gas and Water Items, 243.
Gas Suffocation in French's Hotel, 252.
Gas Engine, Linford's, 252.
Glass Perforated by Electricity, 252.

H.

Heating Power of Coal Gas of Different Qualities, 36.
Hislop's Process for Revivifying Spent Lime. 51.
Haupt, Gen. H., on Water Gas, 75.
Hasting's Directory, 266.

I.

Improved System of Gas Lighting, 13.
Illuminating Railway Carriages, 58, 254.
Iron Sponge for Purification, 108.
Improved Street Lighting in Birmingham, 199.
International Exhibition at Melbourne, 253.

K.

Kerosene Fatality, 61.
" Accident, 102, 243.

L.

Light and Heat, 132.
Lamp Wicks made of Glass, 157.
Letting Gas Stoves on Hire, 173.
Labor Statistics, 249.
Largest Gas Holders in the World, 266.

M.

Midland Association, 51.
Motors, Thermic, Paris, 1878-83.
Morton, Prof. Henry, Reply to Gen. Haupt, 99.
" " " Electrical Measurement of Edison's Lamp, 170.
Means Used to Extend Business, 178.
Municipal Gas Company, Brooklyn, Accident, 202.
Manchester District Ass'n, 219.
Mechanical Stoking. Ross's Machines, 242.

N.

New England Association Gas Engineers, Report of 10th Annual Meeting, 97, 103, 123, 147, 171
Naphthaline, Mr. Harrington, 129, 251.
Natural Gas, 178.
Notes on Carbonizing, 173.
North of England Gas Managers Ass'n, 244.
New Safety Lamp, 277.

O.

Obituary, S. S. Ward, 2.
" George W. Edge, 26.
" W, F. Fewtrell, 266.
" Dr. D. T. Anstead, 266.
" John C. Westwood, 277.
